² – for each foreign currency and precious metal within each type of the individual clearing and the other collateral (Collateral, assets constituting an asset pool, Collateral for Stress, Default Fund) and for each market (in respect of Collateral) the tariff is applied since of the date set by the decision of the Clearing House.

³ – The Clearing House calculates the effective rate of the fee for recording individual clearing collateral and other collateral (in annual interest rate) monthly, not later than the 25th of the calendar month, which follows the month when clearing services have been provided, and discloses it on the Clearing House's website.

Effective rate is calculated as the proportion of the total amount of percent paid by the Clearing House to credit institutions, including foreign credit institutions, where the Clearing House keeps clearing / correspondent accounts to record clearing collateral / other collateral in the relevant foreign currency, and foreign credit institutions, where the Clearing House keeps impersonal metal accounts to record collateral in the relevant precious metal, and the total sum of individual clearing collateral and other collateral in the relevant foreign currency / relevant precious metal, which the Clearing House records each calendar day during the reporting month.

Fee for recording individual clearing collateral and other collateral that shall be paid is calculated in accordance with the formula:

Fee = ROUNDING($\sum_{i=1}^m cl_bali \times S / (y \times 100)$) z;2), where

Fee – the total sum of charges for recording individual clearing collateral and other collateral,

cl_bali – incoming balance of individual clearing collateral and other collateral in the relevant foreign currency / relevant precious metal on a calendar day ‘i’ of a month (value of the field «OPEN_BALANCE» in the Cash flow statement (CCX99)), for the day(s) that do not coincide with Settlement Days – incoming balance for the last Settlement Day (value of the field «CLOSING_BALANCE» in the Cash flow statement (CCX99)),

S – the effective rate of the fee for recording individual clearing collateral and other collateral (in annual interest rate) in the relevant foreign currency / relevant precious metal, disclosed on the Clearing House’s website,

m – a number of calendar days in a reporting month,

y – a number of calendar days in a year, which includes a reporting month,

Z – foreign exchange rate, set out by the Bank of Russia on the last workday of the month, when the services are provided.
